

1

Learning Objectives

By the end of this lesson, you will:

- Create a structured action plan for becoming AI-Native

2

Class Schedule

Day 1

Lesson 1: EDGE & AI-Native

- 1.1 | The EDGE World
- 1.2 | AI-Native

Lesson 2: AI Technical Literacy

- 2.1 | AI Basics
- 2.2 | Data
- 2.3 | Large Language Models
- 2.4 | Prompting and Safe Use
- 2.5 | Retrieval Augmented Generation (RAG)
- 2.6 | AI Agents
- 2.7 | Frontiers In AI

Day 2

Lesson 3: The AI-Native Success Factors

Lesson 4: Improve My Workflow With AI

Lesson 5: AI as Your Thought Partner

Lesson 6: Roadmap to AI-Native

Lesson 7: Tell Your AI-Native Story

3

From Knowledge to Action

5 min

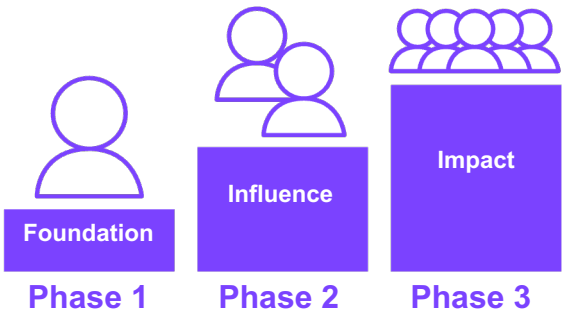

Group discussion: Knowledge is great, a plan is better

- What's one thing you've learned so far that you're most excited to actually apply?
- What usually gets in the way of putting a good idea into action?

4

Upskilling is a Rhythm, not a Race

- The structure:
  - Phase 1 → Build Your Foundation (Recommended: first 30 days)
  - Phase 2 → Influence Others
  - Phase 3 → Impact the Organization
- It's about changing how you see the world, responding accordingly, and redesigning how you work, running experiments, and sharing what's working

5

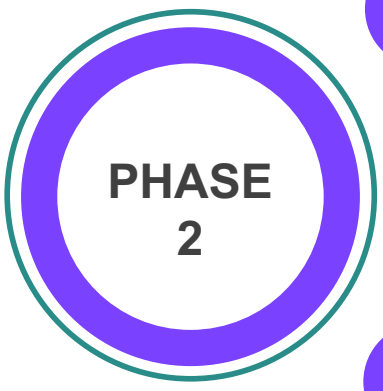

Build Your Foundation

PHASE 1

- ✓ Exam passed with 80%+ within 30 days
- ✓ Two workflows identified for redesign
- ✓ AI-Native Story shared with a colleague or manager

6

Grow Your Influence

- One workflow redesigned with projected results.
- Workflow Business Brief submitted for feedback.
- Make AI is a part of your daily routine.

7

Impact the Organization

- Approved workflow is implemented and showing results.
- Measurable business value has been demonstrated.
- Recognized as an AI champion in your organization.

8

Draft Your Personal Roadmap

Copy the prompt in the companion app 10 min

Individual activity: Make the roadmap personal

- Plan specific action items for each of the three phases: Foundation, Influence, and Impact.

Prompt

"Act as an AI-Native coach. Help me create a personalized action plan using the 'Foundation, Influence, Impact' framework for my role as [Your Job Title]

- For my Foundation Phase, help me plan how to pass the exam, identify two workflows for redesign, and craft a simple 'AI-Native Story' to share what I've learned with my manager.
- For my Influence Phase, help me create a plan to deeply redesign one of those workflows and then structure a formal 'Workflow Business Brief' to get buy-in for my idea.
- For my Impact Phase, help me outline the steps to implement my approved business brief, track the results, and create a report demonstrating the business impact.

For each phase, help me identify key stakeholders and anticipate potential impediments."

Glow + Grow Share-out

10 min

Group activity: Plans get better with input

- Share your plan with the other members at your table
- Group members give:
  - One glow (something great about the plan)
  - One grow (a suggestion or new angle)

Debrief

5 min

Class discussion

- Think back to how you felt walking in here. What's one thing you now know how to do that you didn't before?

11

Insights and Action

1 min

Reflect

What part of your action plan are you most proud of or excited to try? What specific commitment will you make today to ensure this knowledge becomes action rather than just another good idea?

Apply

Ask AI: "Help me create a realistic, 30-day AI implementation plan for my role as [your job title] at [company type]. I want to focus on [specific workflow or challenge you identified]. Break this down into weekly milestones with specific, measurable actions I can take. Include potential obstacles I might face and practical workarounds for each week."
