

1

Learning Objectives

By the end of this lesson, you will:

- Explain the seven AI-Native Success Factors
- Apply the success factors to real challenges

2

Class Schedule

Day 1

Lesson 1: EDGE & AI-Native

- 1.1 | The EDGE World
- 1.2 | AI-Native

Lesson 2: AI Technical Literacy

- 2.1 | AI Basics
- 2.2 | Data
- 2.3 | Large Language Models
- 2.4 | Prompting and Safe Use
- 2.5 | Retrieval Augmented Generation (RAG)
- 2.6 | AI Agents
- 2.7 | Frontiers In AI

Day 2

Lesson 3: The AI-Native Success Factors

Lesson 4: Improve My Workflow With AI

Lesson 5: AI as Your Thought Partner

Lesson 6: Roadmap to AI-Native

Lesson 7: Tell Your AI-Native Story

3

How AI Shows Up at Work Now

5 min

Group discussion

- Do a roundtable; each person should answer the following question:

> If someone asked your organization today, "How are we actually using AI?"—what would your answer be?

4

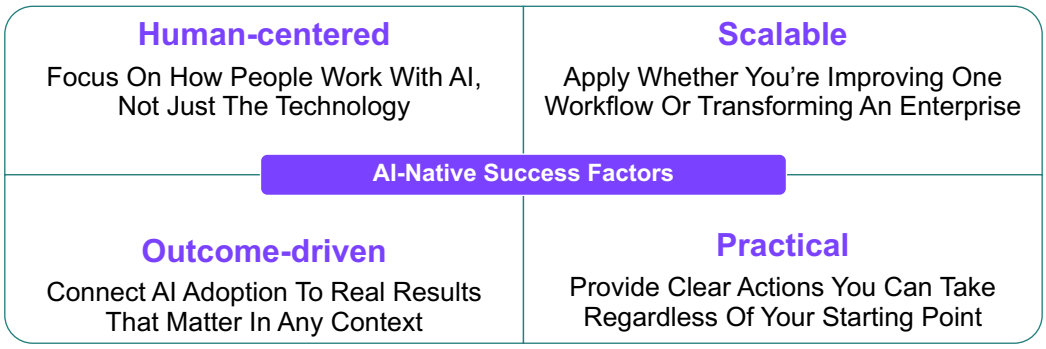

The AI-Native Success Factors

1. Anchor AI to Business Value
2. Upskill Relentlessly
3. Start Smart, Include AI Early
4. Move Fast, Learn Fast
5. Provide Context for AI
6. Embed AI into the Everyday
7. Innovate Boldly, Govern Wisely

These seven success factors are the specific, interconnected habits and practices that, when adopted together, **create an AI-Native culture** for individuals, teams, and organizations.

5

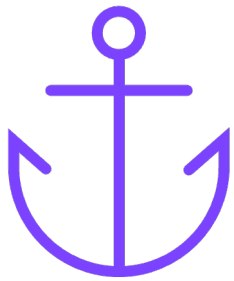

These factors are universal and drive results across every context

The bottom line: Whether you're a designer in healthcare, a manager In finance, or a CEO in manufacturing, these same seven factors drive AI success. Every role, every level, every industry

6

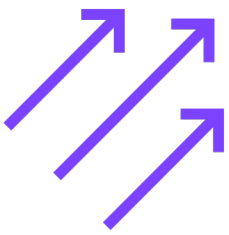

Success Factor 1: Anchor AI to Business Value

AI is a business lever. Connect each initiative to performance outcomes so value is measurable, repeatable, and aligned with the bottom line.

7

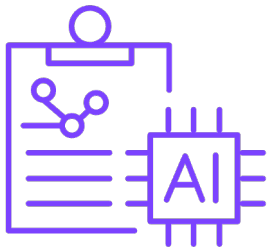

Success Factor 2: Upskill Relentlessly

AI's rapid evolution shows no sign of slowing. By continuously learning and doing, you stay aligned with each breakthrough and turn every new advance into a fresh advantage.

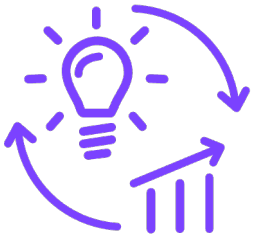

8

Success Factor 3: Start Smart, Include AI Early

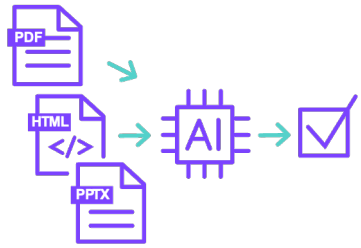

The best results come when AI isn't an afterthought. By bringing AI into the conversation early, you uncover opportunities traditional approaches often miss. Imagine futures you'd never dare attempt alone.

Success Factor 4: Move Fast, Learn Fast

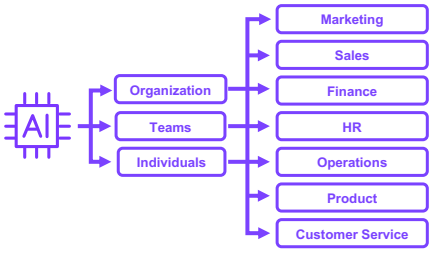

Progress compounds when teams experiment with purpose. AI makes it easier to test ideas quickly, reduce risk, and scale what delivers real impact.

Success Factor 5: Provide Context for AI

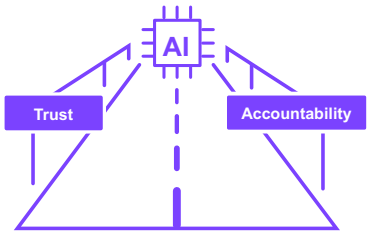

AI works best when it understands the full context. By giving it clear, complete information, you turn it from a black-box tool into a trusted collaborator, helping teams align faster and make smarter decisions together.

Success Factor 6: Embed AI into the Everyday

Incorporating AI into daily workflows quickly leads to better decisions and more innovative ideas that might not have been discovered otherwise.

Success Factor 7: Innovate Boldly, Govern Wisely

Innovation without accountability is a risk. Steering AI with strong guardrails ensures speed doesn't outpace responsibility, and trust becomes your long-term advantage.

Apply the 7 Success Factors to Real Challenges

12 min

- **Step 1: Pick 1 of these scenarios**
  - Launching a new product
  - Reducing operational costs
  - Improving employee retention
  - Enhancing customer service
  - Building AI skills in the workforce
- **Step 2: Apply Success Factors**
  - In your group, pick 3 of the 7 AI-Native Success Factors, and use your LLM to help you answer these questions:
    1. How does each factor apply to this scenario?
    2. What concrete steps would we take in the first 30 days?

Debrief

5 min

Class discussion:

- Which Success Factors did you choose?
- What's one specific action you wrote down to apply it?

15

Insights and Action

1 min

Reflect

Look back at the seven AI-Native Success Factors and consider your current work environment. Which Success Factor feels like the biggest gap or opportunity in your organization right now? Write about why this particular factor stood out to you and what it would look like if your team or organization truly embodied this factor. What would change in how people work, make decisions, or approach challenges?

Apply

Ask AI: "I work in [your role/industry] and just learned about seven AI-Native Success Factors: Anchor AI to Business Value, Upskill Relentlessly, Move Fast Learn Fast, Start Smart Include AI Early, Tell the Full Story, Embed AI into the Everyday, and Innovate Boldly Govern Wisely. Help me create a 30-day action plan focused on one of these factors that I can realistically implement. Ask me which factor I want to focus on, then give me three specific weekly goals with concrete daily actions I can take."
